

NEWHALL FOUNDATION EVALUATION PROJECT

Newhall Foundation Evaluation Project

Status of Completed Condition Assessments

This table provides Haley & Aldrich's initial conclusion of whether or not the property's conditions are impacted by waste fill and/or remediation based on our observations of the property. If foundation and/or water issues were observed, the nature of the issues, and any recommended repairs to address them, will be addressed in individual property reports following investigation to verify our observations and engineering evaluations of the issues. Owners of properties shown below were informed of this initial conclusion by mail as of April 2, 2025.

Address of Property of Condition Assessment Completed through 3/31/2025	Property Possibly Impacted by Waste Fill and/or Remediation	Category of Issue Observed (S=Structural, W=Water)
327 AUGUR ST	Yes	S, W
342 AUGUR ST	Yes	S
