## CR-05 - Goals and Outcomes

### **Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)**

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The Housing and Community Development Act of 1974, as amended, requires all Community Development Block Grant (CDBG) recipients to prepare and submit a Consolidated Annual Performance and Evaluation Report (CAPER) to the U.S. Department of Housing and Urban Development (HUD) at the close of each program year. The Town of Hamden is an entitlement community for this program, as designated by HUD, and receives an annual allocation of CDBG funds. The CAPER provides the Town of Hamden and interested stakeholders with the opportunity to evaluate the progress in carrying out priorities and objectives contained in the Town's five-year plan.

The progress described in this report illustrates Hamden's efforts to utilize CDBG funds to create a more vibrant and livable community and improve the quality of life for low-income citizens. The team continued to prioritize the needs of the community while utilizing HUD's CPD funds to forward the City's Strategic Plan goals and objectives.

This is the first report for the five-year Consolidated Plan period, which began July 1, 2025, and continued through June 30, 2030. The annual CDBG allocation for PY51 (July 1, 2025 – June 30, 2026) was \$458,638.

During PY51, the Town continued to make progress toward these priorities through the implementation of CDBG-funded activities benefiting low-to-moderate income residents. Activities carried out during the year included housing rehabilitation, public services, public facility and infrastructure improvements, and continued implementation of activities funded with prior-year CDBG resources. These efforts further the Town's objectives of providing decent affordable housing and creating a suitable living environment for Hamden residents.

Housing activities continued to preserve Hamden's existing affordable housing stock through rehabilitation assistance to income-eligible homeowners. The 2025 Action Plan identified the Small Home Repair Program as a primary housing initiative, with assistance targeted to LMI owner-occupied households.

The Town also continued to support public services addressing the needs of homeless persons, seniors, youth, persons with disabilities, and LMI populations. In addition, CDBG resources supported public facility and infrastructure improvements intended to improve neighborhood conditions and accessibility within eligible areas of Hamden.

Overall, Hamden's activities during PY51 remained consistent with the priorities established in the Consolidated Plan. Because this is the first

year of the new five-year planning period, several activities remain underway and will continue to generate accomplishments as projects progress and prior-year resources are expended. The Town will continue to evaluate program performance and direct available CDBG resources toward activities that address identified housing and community development needs.

**Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)**

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

| Goal                                          | Category                          | Source / Amount | Indicator                                         | Unit of Measure        | Expected – Strategic Plan | Actual – Strategic Plan | Percent Complete | Expected – Program Year | Actual – Program Year | Percent Complete |
|-----------------------------------------------|-----------------------------------|-----------------|---------------------------------------------------|------------------------|---------------------------|-------------------------|------------------|-------------------------|-----------------------|------------------|

|                                  |                                     |          |                                                                                             |                  |      |       |        |     |       |            |
|----------------------------------|-------------------------------------|----------|---------------------------------------------------------------------------------------------|------------------|------|-------|--------|-----|-------|------------|
| Public Facilities/Infrastructure | Non-Housing Community Development   | CDBG: \$ | Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit | Persons Assisted | 2500 | 51045 | 2,042% | 500 | 51045 | 10,209.00% |
| Public Services                  | Homeless Non-Homeless Special Needs | CDBG: \$ | Public service activities other than Low/Moderate Income Housing Benefit                    | Persons Assisted | 250  | 15    | 6%     | 50  | 15    | 30.00%     |

**Table 1 - Accomplishments – Program Year & Strategic Plan to Date**

**Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.**

The Town of Hamden had not executed its PY51 CDBG Grant Agreement with HUD as of the preparation of this CAPER. As a result, PY51 CDBG funds were not available for expenditure during the program year, and activities undertaken during PY51 were carried out using funds from prior program years. This timing affected the Town's ability to make progress toward the specific goals and outcomes established in the 2025 Annual Action Plan.

The Town used CDBG funds from multiple years to address the priority needs identified in its 2025–2029 Consolidated Plan, including affordable housing, public services, public facilities and infrastructure, economic development, and program administration. These activities support the Town's overall objectives of providing decent housing, creating a suitable living environment, and expanding economic opportunities for low-to-moderate income residents.

CDBG investments supported housing rehabilitation and homeownership assistance, public services for low-to-moderate income and special-needs populations, and improvements to public facilities and infrastructure. These investments are consistent with Hamden's highest priority

goals of preserving its existing affordable housing stock, increasing access to needed services, and improving essential community facilities and infrastructure.

DRAFT

## CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).  
91.520(a)

|                                           | CDBG          |
|-------------------------------------------|---------------|
| White                                     | 34,643        |
| Black or African American                 | 15,328        |
| Asian                                     | 2,356         |
| American Indian or American Native        | 67            |
| Native Hawaiian or Other Pacific Islander | 8             |
| <b>Total</b>                              | <b>52,402</b> |
| Hispanic                                  | 10,361        |
| Not Hispanic                              | 42,041        |

**Table 2 – Table of assistance to racial and ethnic populations by source of funds**

### Narrative

The CR-10 Table does not include all racial and ethnic populations tracked by the Town of Hamden, which accounts for those identifying with mixed racial identities. Race groups not included are as follows: Asian and White, African American/White, American Indian and White, American Indian/African American, and Other Multi-racial. This accounts for any disparity between CR-05 numbers and the CR-10 table.

## CR-15 - Resources and Investments 91.520(a)

### Identify the resources made available

| Source of Funds | Source           | Resources Made Available | Amount Expended During Program Year |
|-----------------|------------------|--------------------------|-------------------------------------|
| CDBG            | public - federal | 458,833                  | 694,291.47                          |

Table 3 - Resources Made Available

### Narrative

The Town of Hamden had not executed its PY51 CDBG Grant Agreement with HUD as of the preparation of this CAPER. As a result, PY51 CDBG funds were not available for expenditure during the program year, and activities undertaken during PY51 were carried out using funds from prior program years. This timing affected the Town's ability to make progress toward the specific goals and outcomes established in the 2025 Annual Action Plan.

The delay in receiving PY51 funding does not represent a change in the Town's housing and community development priorities. Once the PY51 Grant Agreement is executed and funds become available, the Town will proceed with the activities identified in the Annual Action Plan. Future Annual Action Plans will continue to prioritize affordable housing, public services, and public facilities and infrastructure based on community needs and available resources.

### Identify the geographic distribution and location of investments

| Target Area                                                  | Planned Percentage of Allocation | Actual Percentage of Allocation | Narrative Description |
|--------------------------------------------------------------|----------------------------------|---------------------------------|-----------------------|
| CENSUS TRACT 1655 AND 1656, STATE STREET REVITALIZATION AREA | 28                               | 23                              |                       |
| CENSUS TRACT 1655, 1656                                      |                                  |                                 |                       |
| CENSUS TRACT 1655, 1656, AND 1651                            |                                  |                                 |                       |
| Town of Hamden General Benefit Area                          | 82                               | 77                              | General Target Area   |

Table 4 – Identify the geographic distribution and location of investments

### Narrative

During the PY51, the Town of Hamden directed CDBG investments to areas and populations identified in the Consolidated Plan as having priority housing and community development needs. Activities were carried out town-wide, as well as in targeted low-to-moderate income areas, including Census Tracts 1651, 1655, and 1656 and the State Street Revitalization Area.

The geographic distribution of CDBG funds reflects the Town's strategy of concentrating certain public facility, infrastructure, and public service investments in areas with identified needs while making community development activities available more broadly to income-eligible Hamden residents.

DRAFT

## **Leveraging**

**Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.**

Federal funds continue to help the Town of Hamden leverage additional public and private resources to address housing and community development needs. The Town coordinates CDBG investments with programs and resources available through state agencies, housing organizations, nonprofit partners, and private entities to further the goals of the Consolidated Plan. CDBG funds do not require a local match; therefore, no matching requirement was applicable.

During the current Consolidated Plan period, the Town continues to evaluate publicly owned property for opportunities to address identified community needs. The Department of Economic and Community Development, in coordination with the Planning and Zoning Department, reviews Town-owned properties that may be suitable for affordable housing. The Town will continue to pursue additional funding opportunities that can leverage CDBG resources and expand community development opportunities.

Hamden also continues to prioritize partnerships with developers to expand affordable housing opportunities for residents. The Town worked with Regan Development Corporation and Beulah Land Development Corporation in the development and preservation of affordable housing units. Other partnerships include Habitat for Humanity, Neighborhood Housing Services, NeighborWorks New Horizons, and Columbus House.

## CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

|                                                                            | One-Year Goal | Actual   |
|----------------------------------------------------------------------------|---------------|----------|
| Number of Homeless households to be provided affordable housing units      | 0             | 0        |
| Number of Non-Homeless households to be provided affordable housing units  | 10            | 4        |
| Number of Special-Needs households to be provided affordable housing units | 0             | 0        |
| <b>Total</b>                                                               | <b>10</b>     | <b>4</b> |

Table 5 – Number of Households

|                                                                      | One-Year Goal | Actual   |
|----------------------------------------------------------------------|---------------|----------|
| Number of households supported through Rental Assistance             | 0             | 0        |
| Number of households supported through The Production of New Units   | 0             | 0        |
| Number of households supported through Rehab of Existing Units       | 10            | 4        |
| Number of households supported through Acquisition of Existing Units | 0             | 0        |
| <b>Total</b>                                                         | <b>10</b>     | <b>4</b> |

Table 6 – Number of Households Supported

### Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The Town established a goal of assisting 10 non-homeless households through rehabilitation of existing housing during the PY51. While only 4 households were reported toward this goal during the reporting period, the Town remains committed to preserving and improving affordable housing for low-to-moderate income residents, consistent with the priorities established in its 2025–2029 Consolidated Plan.

Implementation of the planned PY51 housing activities was impacted by the timing of the 2025 CDBG Grant Agreement. Because the agreement had not been executed, the Town's PY51 entitlement funds were not yet available for these activities. In the interim, the Town continued administering and advancing activities supported by available prior-year CDBG resources. Once PY51 funding becomes

available, the Town intends to move forward with planned housing rehabilitation activities and continue working toward its affordable housing goals.

**Discuss how these outcomes will impact future annual action plans.**

The Town will continue to prioritize housing rehabilitation and the preservation of affordable housing in future Annual Action Plans. Upon execution of the PY51 Grant Agreement and receipt of the associated CDBG funding, the Town intends to use those funds toward the housing goals established for PY51.

**Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.**

| Number of Households Served | CDBG Actual | HOME Actual |
|-----------------------------|-------------|-------------|
| Extremely Low-income        | 4           | 0           |
| Low-income                  | 0           | 0           |
| Moderate-income             | 0           | 0           |
| <b>Total</b>                | <b>4</b>    | <b>0</b>    |

**Table 7 – Number of Households Served**

**Narrative Information**

These activities remain an important component of the Town's overall housing strategy and will continue to be prioritized in future Annual Action Plans to address the ongoing need for safe, decent, and affordable housing for low- and moderate-income residents. In addition to its CDBG-funded housing activities, the Town has developed strong partnerships with affordable housing developers, including Regan Development Corporation and Beulah Land Development Corporation, to support the development and preservation of affordable housing within the community. These partnerships help expand the Town's capacity to pursue new affordable housing opportunities, preserve existing housing resources, and leverage additional public and private funding. Moving forward, the Town will continue to strengthen these relationships and seek opportunities to collaborate with housing developers and community partners on projects that increase the availability and accessibility of affordable housing throughout Hamden.

## **CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)**

**Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:**

### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

The Town of Hamden continued to address the needs of persons experiencing homelessness through coordination with Community Services and regional homeless service providers. Because Hamden does not have a year-round emergency shelter, individuals experiencing homelessness are referred to shelters and service providers in the New Haven area. The Town's Community Services Department serves as a primary point of contact for connecting individuals with available shelter and supportive services. The Town also coordinates with regional providers, including the Cornell Scott Hill Health Center and Columbus House Outreach and Engagement Team, which provide healthcare outreach, shelter intake, case management, and connections to additional services.

### **Addressing the emergency shelter and transitional housing needs of homeless persons**

Individuals experiencing homelessness are connected with shelters and homeless service providers throughout the New Haven region. Hamden also operates Winter Warming Centers at Breakthrough Church and the Keefe Community Center, providing a safe indoor location during the winter months.

### **Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs**

The Town continued its efforts to prevent homelessness and promote housing stability by connecting low-to-moderate income residents with a broad range of supportive services. Hamden's Community Services Department serves as a vital resource for residents with programming that addresses financial hardships and challenges that can place households at risk of homelessness. Programs and services available through the Department include rental assistance, fuel and utility assistance, health and wellness initiatives, childcare, and referrals to other community resources.

The Community Services Department also helps residents meet basic household needs through programs like the Food Bank, Diaper Bank, and Backpack Program. Community Services staff also helps connect residents with additional resources and programs based on their individual needs.

### **Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that**

**individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

The Town continues to partner with Columbus House to help individuals experiencing homelessness access shelter and supportive services. Columbus House's Outreach Team provides intake, case management, and connections to housing and relevant resources for Hamden residents experiencing homelessness.

DRAFT

## **CR-30 - Public Housing 91.220(h); 91.320(j)**

### **Actions taken to address the needs of public housing**

No federally funded public housing units exist in the Town of Hamden. The Hamden Housing Authority (HHA) is a state-funded PHA that administers Housing Choice Vouchers for eligible residents. The Housing Authority's broader goals include promoting self-sufficiency and expanding housing opportunities for the families and individuals it serves.

HHA residents are also eligible for housing and community development programs available to other low-to-moderate income residents. The Town continues to support efforts that expand affordable rental and homeownership opportunities, which can provide additional housing options for Housing Authority residents and Housing Choice Voucher participants seeking greater housing stability and opportunities for self-sufficiency.

### **Actions taken to encourage public housing residents to become more involved in management and participate in homeownership**

The Housing Authority has a Resident Advisory Board that encourages resident participation in management and policy development. The Hamden Housing Authority will continue to promote programs, and expand its efforts, to encourage resident involvement and homeownership opportunities.

### **Actions taken to provide assistance to troubled PHAs**

The Hamden Housing Authority is not a troubled PHA; therefore, no action was taken.

## **CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)**

**Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)**

During 2025, the Town completed an updated Analysis of Impediments to Fair Housing Choice (AI) along with development of the 2025–2029 Consolidated Plan. The AI evaluated local policies and practices affecting housing choice and identified four current impediments related to economic disparities, housing discrimination, public policies, and disparities in homeownership and lending.

The Town continues to maintain zoning provisions that promote affordable housing, including a requirement that multifamily developments containing five or more units set aside at least 20% of the units as affordable housing. The Town also works with the Hamden Housing Authority, nonprofit and for-profit developers, and community development organizations to preserve and expand affordable housing opportunities.

### **Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)**

In preparing the 2025-2029 Consolidated Plan and the PY51 Annual Action Plan, the Town conducted extensive outreach to better identify obstacles facing underserved residents. Four stakeholder meetings and interviews were held with representatives of local government, nonprofit organizations, affordable housing providers, and other public service providers. The Town also conducted a public needs hearing and community survey to obtain input directly from residents and service providers.

This outreach helped identify needs such as housing stability, food insecurity, elderly services, youth services, domestic violence services, and mental health services. The Town continued to address these needs through coordination among DECD, Community Services, and local service providers. CDBG funds were allocated to public service activities serving LMI residents, including homeless persons, seniors, youth, and persons with disabilities. Community Services also connects residents with rental, utility, energy, and food assistance designed to stabilize households and prevent homelessness.

### **Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)**

The Town's housing rehabilitation program primarily focuses on roof and furnace replacement, which generally do not involve the disturbance of painted surfaces. However, if a CDBG-funded rehabilitation activity involves a pre-1978 property where lead-based paint requirements are applicable, the Town will comply with all applicable provisions of HUD's Lead Safe Housing Rule.

Program participants are informed of lead-safe procedures and provided with applicable lead-based paint information as part of the rehabilitation process. When required based on the age of the property and the nature and extent of the proposed work, the Town will ensure that appropriate lead

evaluations, safe work practices, inspections, and clearance testing are completed by qualified RRP certified contractors.

### **Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)**

As noted above, Hamden continued to address poverty through housing assistance, public services, employment resources, and supportive services. CDBG funds helped LMI households meet essential needs such as housing, food, and utilities. The Town also supports job training, employment assistance, affordable childcare, and affordable housing opportunities to help households increase economic stability and reduce housing cost burdens.

### **Actions taken to develop institutional structure. 91.220(k); 91.320(j)**

The Town continued to strengthen its institutional structure through coordination among Town departments, the Hamden Housing Authority, nonprofit organizations, and community service providers. Stakeholder meetings conducted as part of the 2025–2029 Consolidated Plan process also provided opportunities to identify needs and improve coordination among participating organizations.

### **Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)**

The Town continued to coordinate with the Hamden Housing Authority, Community Services, Elderly Services, Planning and Zoning, nonprofit organizations, housing providers, and regional service agencies to address housing and supportive-service needs. The Consolidated Plan stakeholder process further strengthened communication among these organizations and helped identify opportunities for improved coordination.

### **Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)**

As discussed at beginning of CR-35, the Town completed an updated Analysis of Impediments to Fair Housing Choice (AI) in 2025, which identified four impediments:

1. Higher poverty rates and lower wages for certain members of the protected classes reduce housing choice.
2. Hamden has had a consistently limited number of housing discrimination complaints, but the numbers have increased in recent years.
3. Hamden has a diverse Comprehensive Plan with a strong focus on housing, however, some public sector policies benefit from updating.
4. Homeownership rates are lower for protected classes and home loan originations are more likely to be denied for applicants that belong to a racial or ethnic minority.

The Fair Housing Action Plan developed through the 2025 AI identifies additional measures to reduce regulatory barriers, including continued review of the zoning code, consideration of reasonable accommodation provisions, and consideration of allowing emergency shelters, transitional housing, and

permanent supportive housing as permitted residential uses. The Plan also calls for consultation with the Home Builders Association to evaluate building and housing permit fees and opportunities to expedite approvals for developments that increase the affordable housing supply. The town will continue to make progress on these items throughout the 5-year Consolidated Plan period.

DRAFT

## **CR-40 - Monitoring 91.220 and 91.230**

**Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements**

The Town of Hamden's Department of Economic and Community Development administers the CDBG program and monitors funded activities for compliance with HUD requirements. Staff maintain program records, verify low-to-moderate income eligibility, and review reports and supporting documentation submitted by public service agencies and nonprofit organizations to ensure expenditures are eligible and properly documented.

The Community Development Citizens Advisory Commission (CDCAC) provides additional oversight of the CDBG program. The CDCAC reviews public service applications, interviews applicants, makes funding recommendations, and provides citizen input on community development needs and program implementation.

All CDBG financial and purchasing activities are processed through the Town's Finance Department in accordance with Town procurement procedures and applicable requirements of 2 CFR Part 200. CDBG financial transactions are also subject to the Town's annual audit.

## **Citizen Participation Plan 91.105(d); 91.115(d)**

**Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.**

In Hamden, Connecticut, the town places a strong emphasis on transparency and public engagement when it comes to performance reports. To ensure that citizens have ample opportunity to review and provide input on these reports, Hamden employs several strategies.

First, performance reports are made readily accessible through the town's official website, where residents can view detailed information about various programs and services. Additionally, Hamden holds public meetings and comment periods specifically to discuss these performance reports. During these meetings, residents are invited to ask questions, offer feedback, and engage in discussions with town officials and program managers. These sessions are widely advertised through local media, social media channels, and community bulletins to maximize participation.

Citizens were notified of the availability of the CAPER and the opportunity to comment through September 18, 2026 by newspaper advertisement in The Advisor on 8/18/2026, 8/24/2026, and 9/1/2026. This same advertisement included information on the CAPER public hearing that was held on September 9, 2026.

**CR-45 - CDBG 91.520(c)**

**Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.**

There are no changes anticipated in the goals and objectives of the program.

**Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?**

No

**[BEDI grantees] Describe accomplishments and program outcomes during the last year.**

N/A

| Direct, on-the job training (including apprenticeships).                                                                                                                                                |      |      |     |       |     |
| Indirect training such as arranging for, contracting for, or paying tuition for, off-site training.                                                                                                     |      |      |     |       |     |
| Technical assistance to help Section 3 workers compete for jobs (e.g., resume assistance, coaching).                                                                                                    |      |      |     |       |     |
| Outreach efforts to identify and secure bids from Section 3 business concerns.                                                                                                                          |      |      |     |       |     |
| Technical assistance to help Section 3 business concerns understand and bid on contracts.                                                                                                               |      |      |     |       |     |
| Division of contracts into smaller jobs to facilitate participation by Section 3 business concerns.                                                                                                     |      |      |     |       |     |
| Provided or connected residents with assistance in seeking employment including: drafting resumes, preparing for interviews, finding job opportunities, connecting residents to job placement services. |      |      |     |       |     |
| Held one or more job fairs.                                                                                                                                                                             |      |      |     |       |     |
| Provided or connected residents with supportive services that can provide direct services or referrals.                                                                                                 |      |      |     |       |     |
| Provided or connected residents with supportive services that provide one or more of the following: work readiness health screenings, interview clothing, uniforms, test fees, transportation.          |      |      |     |       |     |
| Assisted residents with finding child care.                                                                                                                                                             |      |      |     |       |     |
| Assisted residents to apply for, or attend community college or a four year educational institution.                                                                                                    |      |      |     |       |     |
| Assisted residents to apply for, or attend vocational/technical training.                                                                                                                               |      |      |     |       |     |
| Assisted residents to obtain financial literacy training and/or coaching.                                                                                                                               |      |      |     |       |     |
| Bonding assistance, guaranties, or other efforts to support viable bids from Section 3 business concerns.                                                                                               |      |      |     |       |     |
| Provided or connected residents with training on computer use or online technologies.                                                                                                                   |      |      |     |       |     |
| Promoting the use of a business registry designed to create opportunities for disadvantaged and small businesses.                                                                                       |      |      |     |       |     |
| Outreach, engagement, or referrals with the state one-stop system, as designed in Section 121(e)(2) of the Workforce Innovation and Opportunity Act.                                                    |      |      |     |       |     |
